

PHILIPS

SpeechMike Pro

This tool is customizable to suit your needs. It's all about user comfort. The SpeechMike Pro features customizable function buttons, allowing it to be adapted to your individual preferences.

Use the push buttons to manage your dictations, and the lightweight device will lie comfortably in your hand -- even during longer dictation sessions.

The scroll wheel allows you to navigate through files on your PC, while the dustproof optical trackball offers unparalleled navigation accuracy.

Conveniently control the playback volume directly on the SpeechMike. Excellent sound quality ensures crystal clear playback, saving time during the transcription process.

\$229

SpeechMike Pro 5274
with push buttons

\$259

SpeechMike Pro PLUS 5276
with push buttons AND four

For busy Medical Professionals who prefer a handset to a "headset" microphone, CHES recommends the Philips SpeechMike Pro (USB).
